

What's New on the MSHSAA Website

April 11, 2018

Scoreboard (February, 2018)

A link to the new [Scoreboard Page](#) is provided on both the [MSHSAA Home Page](#) and the individual [Activity Pages](#). This provides a listing of all games for a particular activity on a selected date. The ability to filter by Class and District is provided as well.

NOTE: For games listed for your school, you and your coaches have the ability to **Enter the Score** for the varsity level from the Scoreboard Page. Then, from that page, access is also provided for the following:

- Official Evaluations
- Editing the Competition (in order to cancel, postpone, reschedule, etc.)
- Baseball Pitch Counts

Social Media links have also been added.

Scoreboard Map (March, 2018)

From the Scoreboard Page, you can switch to the [Map View](#). This plots the games on a map of Missouri. This hopefully makes it easier to see what is happening around your area. Once a score is entered, the map pin turns green.

Member School Map (April, 2018)

A [Map of all the MSHSAA Member Schools](#), Affiliates and HSA's can now be accessed from the "List of Member Schools" link on the About Page.

Schedules (July, 2017) [Schedule Training Video](#)

The Schedules portion of the website was rebuilt from the ground up and released in July of 2017. The goal was to make managing schedules as simple as possible. To this end, the following features were provided:

- **Mouse-Only Adds:** Most games can be created without even having to use the keyboard. The exceptions to this are 1) non-member opponents, 2) non-recent member opponents, and 3) neutral sites. We try to predict game times for levels as well as competition contract amounts, based on your previously established patterns.
- **Copy from Opponent Schedules:** If your opponent has already entered a game against your school, you can copy that in from their schedule.

- **Officials Contract/Evaluations Indicator:** If you or any of your opponents contract officials through our system, you are able to view those officials in advance. After evaluations are entered by either team, those officials will be listed as well.
** Note: We now show the availability of an official based on contracts on our site in the official search feature*
- **Competition Contracts:** Creating competition contracts is streamlined quite significantly. By clicking a single checkbox during the creation of a game, a contract is added. Also, from your schedule, creating a contract is simplified as well.
- **Comparison Tool:** The comparison tool is pretty useful. It compares your entire schedule to the schedules of all of your member school opponents and provided the following alerts:
 - Games on your schedule that DO NOT appear on your opponent's schedule
 - Games on your the schedules of your opponents that DO NOT appear on yours
 - Differences in Start Times
 - Discrepancies in Entered Scores/Outcomes
- **Export Schedule:** This has been improved, so hopefully it is more helpful now.
- **Baseball Pitch Counts:** The color of the icon indicates the status.
 - Red - Missing
 - Orange - A Canceled game does not currently have pitch counts. We don't currently distinguish between games that were cancelled before the first pitch and those that were cancelled after.
 - Green - Pitch Counts Present

Event Settlements (various release dates)

For Postseason Managers, the process of submitting financial statements is almost entirely online now. Cross Country and Track & Field Sectionals are currently in the works and should be completed in the next few weeks. Volleyball Sectionals are next on the list and should be completed by Fall, 2018.

Official Evaluations (July, 2017)

The Official Evaluations format has been completely redone. There are a total of 5 evaluation areas that can be rated from 1 to 5.

If officials were contracted through our site for the game, those officials will be listed with a quick link to evaluate each of them.

State Championship Listings (April, 2018)

This actually hasn't been released yet. However, very soon, the listing of [State Championships](#) (1st to 4th places) in each of our team sports will be provided on the site. This information currently appears in the brochures that are available at the State Championship venues.

Additionally, a [School State Championships](#) page will provide the listing of State Championships (1st to 4th places) earned by a specific school.

Record Book (January, 2018)

The [MSHSAA State Record Book](#) is now completely online. This includes the Record Book Submission process, so no more paper forms and postage stamps!

We currently display the top five record holders and then provide access to all records in the category by clicking a link.

To submit a new record, simply navigate to the appropriate record category. If you are logged in as a school employee, the option to submit a new record will be available at the bottom of the record category.

Additionally, the [School State Record](#) page provides all the State Records achieved by students from a particular school.

Social Media Links are made available for each individual record.

What's **NEXT** on the MSHSAA Website

Responsive Web

The Responsive Web is a term that simply refers to a website that automatically adapts to the screen size of the device that is accessing it. This is long overdue, but we are planning to migrate to that perhaps this summer. We ask for patience during this process, as we have a fairly large website. It will be difficult to test every possible scenario. If you run into any issues, please let us know.

Weight Management Registration

Registration for the Weight Management Certification Meetings should be online this year.

Enrollment Declaration Integration

Thank you to everyone for completing your Enrollment Declarations this past March. By the Fall, we will be comparing these students to those that you include on your Eligibility Rosters to determine whether a transfer form is required. This is a big undertaking, so we again ask for your patience and understanding. The future will be much better, but the transition year may have some bumps along the way.
